OBJECTIVE

I am seeking a data analyst role where I can leverage my strong foundation in SQL, R, Tableau, and spreadsheet tools, which I have honed through a valuable internship experience. My goal is to apply these skills to analyze data, extract actionable insights, and contribute to data-driven decision-making within an organization. My educational background in BCA, coupled with relevant courses in data analytics, has equipped me with the theoretical knowledge and practical expertise required to excel in the field of data analytics.

EXPERIENCE

MedTourEasy

Data Analytics Trainee

October 2023 - Present

- Proficient in data analytics, specializing in Excel for data manipulation and visualization, as well as SQL for data retrieval and manipulation.
- Experienced in exploratory data analysis, statistical analysis, and data visualization using relevant libraries.
- Skilled in designing and implementing data-driven strategies to address business challenges effectively.
- Completed the Google Data Analytics Professional Certificate.
- Currently engaged in a project involving data cleansing and preprocessing to ensure data quality and accuracy.
